## PROFESSIONAL OBJECTIVE

As a dedicated and motivated individual on the cusp of graduation, I am poised to enter the professional arena with a fresh perspective and a hunger for innovation. Eager to apply academic knowledge and hands-on experience to drive success in the field of software engineering, I am committed to continuous learning and making a meaningful impact from day one.

## EDUCATION

- **Thiagarajar College of Engineering**                                                              **Madurai, IN**
  *B.Tech Information Technology | CGPA: 8.14*                                          *June 2021 - May 2024*

- **Kongunadu Polytechnic College**                                                                          **Karur, IN**
  *Diploma|Percentage: 92.3*                                                                      *June 2018- April2021*

- **M.S.P Solai Nadar Memorial Higher Secondary School**                           **Dindigul, IN**
  *SSLC | Percentage: 85.2*                                                                  *June 2017 - April 2018*

## SKILLS

| | |
|---|---|
| **Programming Languages**: Java | **Operating System** : Windows |
| **Database System**:MySQL | **Tools Known**: Git, Postman(Basics) |
| **Frameworks :** SpringBoot | **IDE Known:** Visual Code, IntelliJ |

## PROJECTS

**PROJECT TITLE : "SMART MANAGEMENT FOR UNORGANIZED MILK SUPPLYCHAIN"**

    **DESCRIPTION :** Utilized HTML, CSS, Vanilla JavaScript, Spring Boot, and MySQL to optimize the unorganized milk supply chain, fostering transparency and efficiency. This initiative led to notable improvements in milk production, delivery, and overall supply chain management, emphasizing streamlined processes for enhanced operational smoothness and traceability.

**PROJECT TITLE :"BANKING APPLICATION"** .

    **DESCRIPTION :** Developed a comprehensive banking application utilizing Spring Boot for backend services and HTML, CSS, and JavaScript for frontend, enabling seamless account management functionalities such as creation, withdrawal, and viewing details.

## AREA OF INTEREST                                    ## HOBBIES

- Backend Development
- Object Oriented Programming

- Photo and Video Editing.

## COURSES

- Successfully completed Java on Sololearn in December 2021.
- Passed "java(Basic)" Skill test on HackerRank in April 2022.
- Passed "SQL(Basic)" Skill test on HackerRank in April 2022.
- Successfully completed Basics of Git on SimpleLearn in April 2022.
- Successfully completed 5 Days Html and Css Bootcamp on Lets Upgrade in September 2022.
